MICRO TWISTER Pro2.4G

3-channel, 2.4GHz micro helicopter

Long range – up to 30 metres – 4 times further than infrared!

MICRO TWISTER Pro2.4G

3-channel, 2.4GHz micro helicopter

DEVELOPED IN AUSTRALIA

MICRO TWISTER Pro2.4G

- Beginners and advanced flight modes
- High strength metal body, side frames & tail boom
- Gyro stabilisation system
- MOPS (Motor Overload Protection System)
- Multi-coloured LED lights
- Adjustable trim control
- Replacement main and tail rotors included
- Charges directly from transmitter
- Spare parts available Australia-wide

FEATURES

2.4GHz TECHNOLOGY

- Long range – up to 30 metres – 4 times further than infrared
- Flies indoors or out*
- Fly with your mates – up to 8 helicopters can be flown at the same time.

* In calm conditions – no wind.

MICRO TWISTER Pro2.4G

AVAILABLE IN THREE COLOURS

with Gyro STABILISATION SYSTEM

BEGINNERS & ADVANCED FLIGHT MODES

2.4GHz TECHNOLOGY

Long range micro helicopter – up to 30 metres – 4 times further than infrared. Flies indoors or out*.

Performs like no other helicopter!

BOX CONTENTS:
MicroTwister Pro 2.4G helicopter, 3-channel 2.4GHz transmitter, 2 spare main rotors, 2 spare tail rotors, small screwdriver. USB charging cable.

Transmitter requires 6 AA dry batteries (not included).

TWISTER

MEDEVAC

This Ready-to-Fly R/C helicopter is the ideal introduction to 4-function R/C helicopter flight. Includes: Fully installed 4 channel FM radio, LiPo flight battery with balance plug, Cell balancing type battery charger, Instructional DVD.

IT ALMOST HOVERS BY ITSELF... IT'S SO STABLE AND EASY TO FLY INDOORS!

Featuring twin contra-rotating blades with computerised piezo gyrostabiliser for maximum stability. Enjoy long flights with the proven, precision Twister control system.

TWISTER R/C HAWK
The ideal first time indoor R/C helicopters with everything included – even R/C, spare parts & PC flight simulator cable for safe preflight training!
Semi-scale twin-motor, co-axial rotor.
ARMY
Completely assembled & painted helicopters both featuring LBW & MOPS damage prevention systems.

TWISTER

HAWK

Technical Features

- Factory-assembled COMPLETELY ready-to-fly scale RC helicopter
- Designed specifically for people WITH NO R/C EXPERIENCE
- Specially developed co-axial main rotor with Hiller stabilisation for revolutionary hovering stability!
- So stable it almost hovers by itself-ideal for newcomers to flight!
- Full 4 function proportional control (like the real thing!) over roll, pitch, yaw and vertical axes!
- Capable of hovering flight, backwards flight, sideways flight, pirouettes and even mild aerobatics!
- Designed for indoor flying or outdoor flight in still conditions
- One-piece '4 in 1' on-board computerised electronics unit saves weight, improves performance and simplifies use
- Digital proportional FM transmitter with silky smooth stick units and proportional trims
- Ball bearing swashplate, drive system and main shaft
- ALL parts available as spares through your hobby supplier
- No Special tools (except small screwdriver) required

TWISTER R/C SEA KING

FACTORY-ASSEMBLED & READY-TO-FLY! RTF

WORLD 1ST FIRST!

TEST-FLOWN & FLIGHT-GUARANTEED
so you know it flies!

TWISTER R/C SEA KING
The ideal * first-time indoor R/C helicopter with EVERYTHING included — even R/C & spare parts!
The world's first co-axial helicopter with working tail rotor and winch!
RTF READY-TO-FLY!
TEST-FLOWN & FLIGHT-GUARANTEED
so you know it flies!
WORLD 1ST FIRST!
Features...
LED Search lights as standard
Working winch system with magnetic pick up
Motorised tail rotor
LBW & MOPS Damage Prevention Systems
FREE set of spare main rotor blades
Planet T7 Advanced 2.4gHz Radio System!
AROUND 10-MINUTE FLIGHTS!
*Dependent upon battery condition, flying style & helicopter condition.
INCLUDES Planet T7
PREPARE FOR THE FUTURE!
FREE! x4 AA Transmitter Batteries
FREE! Set of spare Main Blades
WORKING TAIL ROTOR AND WINCH FITTED AS STANDARD!
ROYAL NAVY RESCUE
Includes... Planet T7 ADVANCED 2.4GHz rock-solid r/c
SO STABLE IT ALMOST HOVERS BY ITSELF!
* No previous R/C flying experience necessary!
WARNING: Flying Radio Controlled Model—not a toy! Unsuitable for persons under 14 years old.

One Purpose...

Training Pilots

The ideal introduction to 4-function R/C flight. Includes Planet T7 7-channel 2.4Ghz transmitter complete with Ready-To-Fly Twister Sea King helicopter, lipo battery, charger and more!

- Damage Prevention - Low Battery Warning beacon (LBW)
  Flashes when battery must be recharged!
- Damage Prevention - Motor Overload Protection System (MOPS)
  Kills power to motors on blade-stalling tip-overs!
- Piezo Electronic Gyro Stabilisation
- Completely built, painted and test-flown R/C helicopter
- 7-channel Planet T7 Advanced 2.4gHz R/C
- AC mains power supply and DC balancing fast charger & battery

Quick access cover

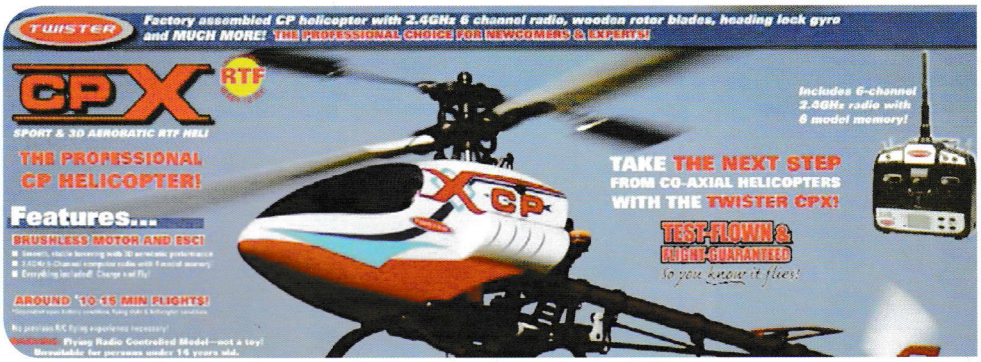
TAKES PHOTOS OR VIDEO
POLICE HELICAM
Everything included...
• Completely assembled/painted R/C helicopter
• 5-function digital proportional FM transmitter
• 240V Indoor & 12V field Li-Po charger & battery
• Piezo Electronic Gyro Stabilisation v3 (PEGS3)
Damage Prevention Features
• Motor Overload Protection System (MOPS)
Kills power to motors on blade-stalling tip-overs
• Low battery Warning Beacon (LWB)
Flashes when battery must be recharged



TWISTER
Factory assembled CP helicopter with 2.4GHz 6 channel radio, wooden rotor blades, heading lock gyro and MUCH MORE! THE PROFESSIONAL CHOICE FOR NEWCOMERS & EXPERTS!
CPX RTF
SPORT & 3D AEROBATIC RTF HELI
THE PROFESSIONAL CP HELICOPTER!
Features...
BRUSHLESS MOTOR AND ESC!
AROUND 10-15 MIN FLIGHTS!
Includes 6-channel 2.4GHz radio with 8 model memory!
TAKE THE NEXT STEP FROM CO-AXIAL HELICOPTERS WITH THE TWISTER CPX!
TEST-FLOWN & FLIGHT-GUARANTEED so you know it flies!

Technical Features

- Factory-assembled COMPLETELY ready-to-fly 3D helicopter
- CCPM 120° flight control system for precise performance
- Designed specifically for the next step-up for pilots who have mastered co-axial helicopters!
- 3D flight performance without having to upgrade!
- high performance, low current draw brushless motor
- Digital proportional 2.4GHz transmitter with silky smooth stick units and proportional trims
- High quality ball bearings
- High performance, low current draw tail belt drive system
- Bell hiller mixing for quick cyclic response
- HL400 tail lock (heading hold) gyro for the strongest holding tail
- Super lightweight construction for the ultimate performance
- Strong two-piece main frame
- ALL parts available as spares through your hobby supplier
- Upgrade option parts available separately
- No Special tools required

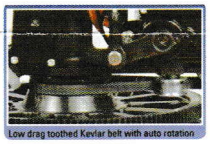
TWISTER

Professional digital servos installed

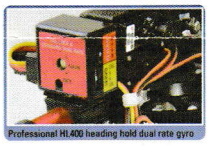
Professional brushless motor & ESC installed

Professional, powerful, smooth rotor head and HD main shaft

Planet 6-channel receiver installed in sturdy



Low drag toothed Kevlar belt with auto rotation



Professional HL400 heading hold dual rate gyro

READY TO FLY R/C HELICOPTER
INCLUDING 2.4GHZ 6-CH COMPUTER RADIO

TWISTER

THE PROFESIONAL CHOICE
FOR NEWCOMERS AND EXPERTS!

TEST-FLOWN & FLIGHT-GUARANTEED so you know it flies!
6-channel 2.4GHz radio with 8 model memory included in RTF complete set!

Technical Features

- Factory-assembled COMPLETELY ready-to-fly 3D helicopter
- CCPM 120° flight control system for precise performance
- Ultimate 3D flight performance without having to upgrade!
- High performance Cyclone 440 Turbo brushless motor for maximum torque
- Digital proportional 2.4GHz transmitter with silky smooth stick units and proportional trims
- High quality ball bearings
- High performance, low current draw tail belt drive system
- Bell hiller mixing for quick cyclic response
- HL400 tail lock (heading hold) gyro for the strongest holding tail
- Super lightweight construction for the ultimate performance
- Strong two-piece main frame
- Anodised aluminium lightweight parts
- All 4 servos fitted
- All pushrods and links fitted
- Carbon fibre tail pich control pushrod
- Autorotation fitted
- Main blade grips thrust and ball raced
- Ballraced tail pitch slider
- Twin ballraced tail pitch bellcrank
- Twin boom support kit fitted
- ALL parts available as spares through your hobby supplier
- Upgrade option parts available separately
- No special tools required.
